- This year we will be providing a parents/coaches class on Friday evening at the range. The majority of the USAMU Action Shooting Team is made up of professional shooters that enlisted into the US Army upon high school graduation. All were up and coming junior shooters that went through the same path that many of your juniors are currently on. We want to provide our perspectives to you all in order to fully support your junior. There is a future in shooting sports, and if that future is to be a part of the “Home of Champions” – USAMU, then we’ll tell you how to get there.
